

General Specifications:

Metal: All Loopy Series 21 bike racks are constructed of 1.9" (4.8cm) steel pipe. The metal is coated with Polyester, electrostatically applied and baked at a high temperature to produce a "mar-resistant" finish.

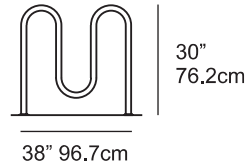

Hardware: Vandal-resistant flush nuts are provided for all bolt-down and free-standing models. All hardware is professionally finished with our baked-on Polyester Powder Coating.

Dimensions:

Options:

Installation: The Loopy 21 Series is available as in-ground, bolt-down, or free-standing. (Bolt-down diagrams shown here).

In-ground: The bike racks install directly into concrete to a depth of 12".

Bolt-down: The bike racks are fastened directly to the ground using 3/8" bolts (not provided). Vandal-resistant flush nuts are included for additional security.

Metal Colours: Make your choice from one of eighteen standard paint colours. Or, for an additional charge, choose from one of over 160+ custom paint colours. Standard colour chips and Custom colour charts are available upon request.
