

General Specifications:

Metal: All Express Series 12 bollards are constructed of 1.9" (4.8cm) steel pipe. The metal is coated with Polyester, electrostatically applied and baked at a high temperature to produce a "mar-resistant" finish.

Hardware: Vandal-resistant flush nuts are provided for all bolt-down models. All hardware is professionally finished with our baked-on Polyester Powder Coating.

Options:

Installation: The Express 12 Series is available as in-ground and bolt-down.

In-ground: The E12-BR01 bollard installs directly into concrete to a depth of 12". See detail 'A' above.

Bolt-down: The E12-BR02 bollard is fastened directly to the ground using 3/8" bolts (not provided). Vandal-resistant flush nuts are included for additional security. See detail 'B' above.

Metal Colours: Make your choice from one of eighteen standard paint colours. Or, for an additional charge, choose from one of over 160+ custom paint colours. Standard colour chips and Custom colour charts are available upon request.
